

PHP DEVELOPER

AKASH

OBJECTIVE:

As a dedicated and ambitious BCA student, I am seeking opportunities to apply and enhance my skills in the dynamic field of computer applications. With a passion for technology and a commitment to academic excellence, I aim to contribute my knowledge and creativity to a forward-thinking organization.

PROJECTS:

Contact Management System

"Efficiently manage your contacts with our Contact Management System. Users can seamlessly add, delete, and update contacts, ensuring a streamlined and organized approach to personal and professional connections."

Library Management System

"Built using MVC architecture, our dynamic Library Management System in PHP enables administrators to edit student details, add/delete books, and manage notifications. Students experience smooth book access, fostering efficient communication and resource tracking for an enhanced library experience."
